The Chairman and Members of the  
Hazel Grove and Bramhall Urban District Council

Mr Chairman, Ladies and Gentlemen,

ANNUAL REPORT FOR 1971

I have the honour to present my Annual Report for the year ending 31 December 1971.

The provisional population at the 1971 Census was 39,534, which is an increase of 9,617 or almost one-third over the population at the Census in 1961.

In the first five year period of this decade the crude birth rate was 18.6 per 1,000 population and in the second five year period it had fallen to 17.6. The crude death rate fell from 9.1 per 1,000 population to 8.7 in the same period. The still birth rate for the first five years was 10.2 per 1,000 live and still births; in the second five year period the rate was 8.0. The infantile mortality rate also showed a fall from 17.2 per 1,000 live births to 16.1. The notification rate for cases of pulmonary tuberculosis also fell slightly, that for non-pulmonary tuberculosis by almost fifty per cent. Whilst the crude death rate from coronary disease was also slightly reduced, as was the crude death rate for malignant disease excluding cancer of the lungs, unfortunately the upward trend of deaths from this latter disease continued. In the five year period 1962-1966 the crude death rate for lung cancer was 33 per 100,000 population, but in the period 1967-1971 the rate had increased to 44. In the first five year period deaths in women from this cause were one-sixth of the total and in the second period deaths in women accounted for one quarter of the total. When will we ever learn !

Notifications of infectious disease in 1971 were an all-level low. In the ten year period under review there have been no major outbreaks of infectious diseases. Measles cases accounted for well over 90% of the total notifiable disease cases. The notification rate for measles fell from 9.9 per 1,000 population in 1962-1966 to 3.9 per 1,000 population in 1967-1971. There is no doubt that this rate could be reduced still further if the take-up of measles vaccination was improved - unfortunately, rather less than two-thirds of all eligible children are receiving protection.

During the year an expert committee advised that because the risk of smallpox being introduced into this country continues to diminish, and as vaccination against smallpox may in a few cases give rise to serious complications, the routine vaccination of children need not now be recommended.

It is, of course, still essential that travellers to and from smallpox areas should be protected by vaccination. It is also essential that parents should be quite clear in their minds that the need for all the other protective inoculations now given during childhood remains as important as ever.

Satisfactory progress is continuing with the Smoke Control programme, and it is confidently hoped that it will be possible to complete the programme in 1974.

The White Paper on the Reorganisation of the Health Services in England has now been published. It is proposed to set up 90 Area Health Authorities to be responsible for the provision of all the health services within its area, to be financed from a single source, thus eliminating the distinction between hospital and community services. There will be a Central Department responsible for policy making and an intermediate Regional Authority interposed between the central authority and the areas.

This unification of administration will make it possible for the first time to review the total health needs of an area and to make unbiased decisions on priorities.

Details of the work carried out by members of the staff of the Health Department are given in appropriate sections of this Report.

In conclusion, it is a great pleasure to express my gratitude to the Chairman and Members of the Health Committee for their continued support and confidence. I should like to thank Mr. Tiplady, Chief Public Health Inspector, for his help and loyalty. I am indebted to the staff of the Health Department for their hard work throughout the year and to colleagues in other Departments for their willing co-operation at all times.

I am, Mr. Chairman, Ladies and Gentlemen,

Yours faithfully,

T. W. BRINDLE

Medical Officer of Health

SECTION "B"

GENERAL PROVISION OF

HEALTH SERVICES IN THE AREA

## GENERAL PROVISION OF HEALTH SERVICES IN THE AREA

Laboratory facilities are available at the Public Health Laboratory at Withington Hospital.

The following services are provided by the Local Health Authority (Cheshire County Council) and administered by the North East Cheshire Divisional Health Committee:

Ambulance facilities: A 24-hour ambulance service is available, being provided by Stockport Corporation on an agency basis. In addition, sitting case ambulances are available.

Nursing in the Home: There are in the area five District Nurses who undertake general nursing, two district nurse/midwives and four County midwives. All nursing staff are attached to general medical practitioners.

Health Visitors: There are six Health Visitors who work in the area.

### Child Health Centres:

Sessions are held weekly at the Clinic, 253 London Road, Hazel Grove and at the Methodist Sunday School, Bramhall, and fortnightly at the Brookdale Social Club, Bridge Lane, Bramhall. Attendances during the year were as follows:-

Centre	New Cases 0-1 year	Total Attendances		
		0-1 year	1-2 years	2-5 years
Hazel Grove	279	1555	713	476
Bramhall	204	1321	589	55
Bridge Lane	73	186	222	32

### School Clinic:

Held monthly at the Clinic, 253 London Road, Hazel Grove.

### Dental Clinic:

A Dental Surgeon attends at the Clinic, 253 London Road, Hazel Grove.

### Specialist Clinics:

The following Specialist Clinics are held at regular intervals at the Clinic, 253 London Road, Hazel Grove:

Ear, Nose and Throat Clinic  
Eye Clinic  
Speech Therapy Clinic  
Child Guidance Clinic  
Old People's Preventive Clinic  
Cytology Clinic

### Diphtheria, Whooping Cough, Tetanus, Poliomyelitis and Measles Protection:

A special clinic is held for this purpose once a month at the Clinic, 253, London Road, Hazel Grove, and arrangements are made for the immunisation to be performed at the end of every welfare session at Bramhall. In addition, immunisation is carried out free of charge by general medical practitioners

at their surgeries. An annual visit is made to all primary schools in the district for the purpose of giving diphtheria, tetanus and poliomyelitis reinforcing doses. An annual visit is made to all secondary schools to give B.C.G. vaccination and vaccination against German Measles to girls.

#### Chiropody Service:

Financial help in obtaining chiropody treatment is given to persons aged 65 years and over, persons registered as physically handicapped and expectant mothers, on the recommendation of their family doctor. Treatment is given by the chiropodist chosen by the patient.

#### Welfare Foods:

Welfare foods are on sale at the Divisional Health Office, 253 London Road, Hazel Grove, from Monday to Friday, and at all Child Welfare Centres.

#### Family Planning Service:

A family planning clinic started in 1964 at the Clinic Centre, Hazel Grove, under the direction of the Family Planning Association, is held weekly. Attendances continue to increase, and in 1971 there were 218 new patients, and attendances at the Clinic totalled 1960. In addition, a domiciliary service provided by the Cheshire County Health Department is available in certain cases.

#### Services provided by the Manchester Regional Hospital Board:

##### Hospitals:

There is no hospital within the Urban District. Patients from this area are admitted to hospitals in neighbouring districts.

Maternity cases requiring hospital accommodation are also admitted to hospitals outside this area. Where necessary, infectious disease cases other than smallpox are admitted to the Stockport Isolation Hospital and Monsall Isolation Hospital. Facilities for smallpox cases are provided at Ainsworth Smallpox Hospital near Bury.

##### Tuberculosis and Venereal Diseases:

Special Clinics for the diagnosis and treatment of tuberculosis and venereal diseases are held at the Chest Clinic, Stepping Hill Hospital and St. Thomas' Hospital, Flint Street, Stockport, respectively.

## (ii) Water Supply

The whole of the Urban District is served directly from the public water mains of the Stockport and District Water Board.

The water, which is chemically treated to prevent plumbo-solvent action, is stored in impounding reservoirs, treated by mechanical filtration plant and subsequently chlorinated. It has been satisfactory in quality and quantity.

Bacteriological examinations were made monthly of the raw water and weekly of the treated water going into supply - the results were satisfactory. Chemical analyses were made monthly of the raw water and treated water going into supply, again with satisfactory results.

Bacteriological examination and chemical analysis of a typical sample taken during the year showed the following results:-

### Source - Lyme Park Treatment Works

Appearance - Clear, colourless, free from sediment.

Colour - 6 Hazen units

Silica Units - Nil

Electrical Conductivity at 20°C - 265 micromhos/cm

Equivalent to soluble solids - 111 mg/l

### Chemical results in milligrams per litre

pH value .....	7.75
Free Acidity as CO <sub>2</sub> .....	3
Free Alkalinity as CaCO <sub>3</sub> .....	Nil
Total Alkalinity .....	27
Carbonate Hardness as CaCO <sub>3</sub> .....	27
Non-carbonate Hardness as CaCO <sub>3</sub> .....	44
Total as CaCO <sub>3</sub> .....	71
Chlorides as Cl .....	15
Nitrites as N .....	Nil
Nitrates as N .....	Nil
Free and Saline Ammonia as N .....	0.04
Albuminoid Ammonia as N .....	0.05
Oxygen absorbed test, 4 hours @ 27°C .....	0.79
Iron as Fe .....	0.10
Manganese as Mn .....	0.11
Silica (SiO <sub>2</sub> ) .....	4
Aluminium as Al .....	0.05
Lead as Pb taken up in second 24 hours ....	0.04
Fluorides as F .....	Nil

### Bacteriological Examination

Coli-aerogenes per 100 ml - 0

Escherichia coli per 100 ml - 0

(iii) Clean Air

The Council's smoke control programme is on schedule and is expected to be completed in 1974.

Hazel Grove and Bramhall (No. 7) Smoke Control Order 1971 will be operative on 1st November 1972. There are now 2763 acres (46% of the district) and 9443 premises (69% of the total) subject to smoke control orders.

Four applications for the prior approval of chimney heights were received. Three were initially refused but later approved with revised and increased chimney heights.

(iv) Pest Control

The Council's pest control service is provided without charge to domestic and business premises, and the following Table gives details of the work carried out during the year ended 31st December 1971.

Properties other than sewers	Type of Property	
	Non-Agricultural	Agricultural
Number of properties in district	14518	44
Total number of properties(including nearby premises) inspected following notification	269	11
Number infested by rats	144	9
Number infested by mice	48	2
Total number of properties inspected for rats and/or mice for reasons other than notification	-	-

The treatment of the Council's refuse tip for rats and flies was carried out this year by the staff of the Health Department instead of by a private servicing contractor. The work was time-consuming during the summer months but the absence of complaints from nearby residents would seem to indicate that the treatment was effective.

The number of complaints of rat and mice infestation received was again high.

Wasps were again very much in evidence and almost 200 nests were treated.

(v) Pet Animals Act 1951 and Animal Boarding Establishments Act 1963

There are three licensed Pet Shops and one animal boarding establishment in the district.

(vi) Moveable Dwellings

There are no licensed caravan sites in the urban district.

(vii) Music and Dancing Licences - Cheshire County Council Act 1953

28 premises were registered for Music and Dancing and one occasional licence was also issued. All premises are inspected by the Fire Authority, the Police and the Public Health Department before registration.

(viii) Sewerage and Sewage Disposal

The construction of the Bean Leach Foul Sewer started on 1 August 1970 has now been satisfactorily completed.

Design work on the Bramhall Main Drainage scheme is now complete and construction work will start in May 1972.

Work on a sewer survey in Hazel Grove is well advanced and it is subsequently proposed in March 1972 to subject the system to a computer analysis similar to the one undertaken in Bramhall.

The Bridle Road Drainage Contract, to connect the properties at the lower end of Bridle Road to the Main Sewer, will be completed by March 1972.

The Offerton Sewage Disposal Works is fully operational and a consistently high standard of effluent is being maintained.

(ix) Noise

Several complaints of noise were received from residents. The complaints referred to neighbour noise, dogs, vehicle movements at night, movement of metals, road drills.

(x) Bye-Laws and Regulations

The following Bye-Laws and Regulations relating to Public Health are in operation in the Urban District:-

Common Lodging Houses

Offensive Trades

Slaughterhouses

Cleansing of Footways and Pavements and With Respect to Nuisances

Removal of House Refuse

Tents, Vans and Sheds and Similar Structures

Street Trading by Young Persons ++

Employment of Young Children ++

Smoke Abatement

Deposit of Litter and Dangerous Substances

Buildings

New Streets

Handling, Wrapping and Delivery of Food, and Sale of Food in Open Air.

Hairdressers and Barbers

Building Byelaws with respect to Smoke Prevention

Fouling of footways by Dogs ++

Swimming Baths

++ Made by Cheshire County Council and operative in the Urban District.

SECTION 'E'

HOUSING

# HOUSING

The following table gives particulars of post-war building progress in the Urban District.

Year ending 31st March	Number of houses erected		
	Private Enterprise	Local Authority	Total
1946	5	-	5
1947	94	-	94
1948	18	61	79
1949	-	85	85
1950	13	38	51
1951	4	-	4
1952	22	30	52
1953	23	98	121
1954	75	66	141
1955	372	-	302
1956	419	28	447
1957	474	12	486
1958	530	24	554
1959	500	336	836
1960	466	14	480
1961	249	22	270
1962	233	36	269
1963	414	-	414
1964	534	-	534
1965	579	-	579
1966	325	47	372
1967	415	77	492
1968	307	20	327
1969	365	-	365
1970	208	30	238
1971	181	-	181
1972	135	-	135
Totals	6889	1024	7913

Number of new houses in progress at 31st March 1972:

- (i) Private development ..... 318
- (ii) Council Houses ..... Nil

The following are details of the work carried out during the year under the Public Health Acts and Housing Acts:

## Inspection of dwelling houses:

Number of inspections for housing defects under Public Health Acts and Housing Acts ..... 110

### Remedy of defects without service of formal notice:

Number of houses rendered fit including houses in respect of which informal notices were served prior to 1971 ..... 2

### Action under Statutory Powers:

#### (i) Proceedings under Section 9, Housing Act 1957:

- (a) Number of houses in respect of which notices were served requiring repairs ..... -
- (b) Number of houses rendered fit after service of formal notices .... -

#### (ii) Proceedings under Section 16, Housing Act 1957:

- (a) Number of houses in respect of which Clearance, Demolition or Closing Orders were made ..... 1
- (b) Number of houses demolished or closed ..... 1

#### (iii) Proceedings under Public Health Act, 1936:

- (a) Number of houses in respect of which notices were served requiring defects to be remedied ..... -
- (b) Number of houses in respect of which defects were remedied after service of formal notices, including notices served prior to 1971 ..... -

### Standard and Improvement Grants

39 applications were received for standard grants, of which 37 were approved by the end of the year.

6 applications for discretionary improvement grants were received, of which 2 were approved.

### Council Houses - Allocation of tenancies

51 tenancies were allocated during the year. 15 of these were to existing tenants who were transferred to more suitable accommodation.

During the year, a Lettings Sub-Committee was formed which reviewed the waiting list and revised the qualifications required of applicants for accommodation<sup>1</sup><sub>2</sub>.

### Sheltered Accommodation

One vacancy occurred at Torkington House and one at Lumb House. During the year, the "Johnnie" Johnson Housing Trust Limited Sheltered Housing Scheme at Kenley Lodge, Bramhall, was opened. 14 applicants from the Council waiting list were offered and accepted tenancies.

All these schemes appear to be operating smoothly due largely to the untiring efforts of the respective Wardens.

SECTION 'F'

INSPECTION AND SUPERVISION  
OF FOOD

INSPECTION AND SUPERVISION OF FOOD

1. Meat Inspection

Details of the work carried out during the year are given in the following Tables.

(a) Carcases and offal inspected and condemned in whole or in part:

	Cattle excluding Cows	Cows	Calves	Sheep and Lambs	Pigs
Number killed	389	-	-	1738	52403
Number inspected	389	-	-	1738	52403
<u>All Diseases except</u>					
<u>Tuberculosis and Cysticerci</u>					
Whole carcases condemned	-	-	-	1	180
Carcases of which some part or organ was condemned	14	-	-	9	5240
Percentage of number inspected affected with disease other than Tuberculosis and Cysticerci	3.60	-	-	0.57	10.34
<u>Tuberculosis only</u>					
Whole carcases condemned	-	-	-	-	-
Carcases of which some part or organ was condemned	-	-	-	-	279
Percentage of number inspected affected with Tuberculosis	-	-	-	-	0.53
<u>Cysticercosis</u>					
Carcases of which some part or organ was condemned	-	-	-	-	-
Carcases submitted to treatment by refrigeration	-	-	-	-	-
Generalised and totally condemned	-	-	-	-	-

(b) Bacon Factory, High Lane

Number of pigs slaughtered and inspected .....	52401
Number of carcasses affected with Tuberculosis .....	279
Percentage of total number slaughtered .....	0.53 %
Number of carcasses wholly condemned for Tuberculosis .....	NIL
Percentage of total number slaughtered .....	-
Number of carcasses wholly condemned for causes other than Tuberculosis .....	180
Percentage of total number slaughtered .....	0.34 %
Total weight of meat condemned, including condemnations other than whole carcasses .....	32,690 lbs.

Distribution of diseases with respect to carcasses  
which were wholly condemned:-

Acute Diffuse Septic Peritonitis .....	17
Pyæmia .....	24
Died in Transit or in lairage .....	40
Acute Diffuse Septic Pneumonia .....	10
Multiple Abscesses .....	23
Septicæmia .....	4
Septic Peritonitis .....	1
Acute Diffuse Septic Pleurisy .....	20
Pathological Emaciation with Oedema .....	13
Extensive Bruising .....	3
Pathological Emaciation with Arthritis .....	12
Pyrexia .....	5
Icterus .....	1
Acute Diffuse Septic Mastitis .....	1
Acute Diffuse Septic Pleurisy and Peritonitis ....	2
Uraemia .....	2
Septic Arthritis .....	2
Total	<u>180</u>

(c) Private Slaughterhouses:

Number of carcasses inspected:

Cattle, excluding cows .....	389
Cows .....	-
Calves .....	-
Sheep and lambs .....	1738
Pigs .....	2

### Condemnations:

Whole carcasses .....	1
Heads .....	1
Lungs .....	-
Livers .....	23
Hearts .....	-
Other parts and/or organs .....	-

### 2. Food Inspection

(a) Food premises in the area: The following is a list of the food premises in the area:-

Clubs and licensed premises .....	62
Grocers .....	55
Butchers .....	28
Slaughterhouses .....	3
Greengrocers and/or wet fish shops .....	25
Cafes and restaurants .....	13
Sweets and/or Ice cream .....	62
Fried fish shops .....	10
Confectioners/bakehouses .....	18
Tripe shop .....	1
Bacon factory .....	1

In addition, there are 15 factory canteens and 19 school canteens.

Food premises, registered under the Food and Drugs Act, are as follows:-

Preparation of potted, pressed, pickled or preserved food .....	45
Preparation of fish by any process of cooking .....	9
Manufacture and sale of ice cream .....	1
Storage and sale of ice cream .....	62

(b) Condemnation of unsound food: In addition to the unsound meat condemned at the bacon factory and private slaughterhouses, the following foods were condemned during routine visits to food premises:-

Beef .....	18 lbs	Pork .....	185 lbs
Lamb .....	351 lbs	Veal .....	17 $\frac{3}{4}$ lbs
Ham .....	353 lbs	Bacon .....	62 pkts. and 282 lbs
Tongue .....	39 $\frac{1}{2}$ lbs	Sausages .....	4 tins and 106 $\frac{3}{4}$ lbs
Meats .....	790 pkts,	Turkeys .....	213 lbs
	57 tins & 73 $\frac{1}{2}$ lbs	Margarine .....	19 $\frac{1}{2}$ lbs
Chickens .....	13 pkts & 324 lbs	Jam .....	9 lbs
Butter .....	140 lbs	Sugar .....	11 lbs
Lard .....	30 lbs	Biscuits .....	8 lbs
Marmalade .....	2 lbs	Tapioca .....	11 lbs
Confectionery .....	491 pkts	Salt .....	9 lbs
Cereals .....	35 pkts	Soups .....	154 tins
Cheese .....	117 pkts & 97 lbs	Flour .....	24 lbs
Fruits, Fruit Juices, etc.		Vegetables .....	882 tins,
	12 $\frac{1}{4}$ lbs and 1004 tins		614 pkts & 118 $\frac{1}{4}$ lbs
Fish .....	35 tins, 840 pkts and 9 lbs	Christmas Puddings .....	216 lbs
Milk .....	60 tins	Pudding Mixtures....	110 tins and 91 pkts.
Custard Powder .....	7 tins	Eggs .....	47 $\frac{1}{2}$ doz.
Cream, Yoghurt, etc. ....	638 ctns	Sauces, Pickles, etc. ....	39 bott.
Ice cream .....	293 pkts	Beer .....	6 cans
Coffee .....	34 tins		

All condemned food, other than meat and offals, is disposed of by burying on the Council's refuse tip.

Condemned meat and offals are removed from the slaughterhouses by private contract for ultimate conversion into fertilisers.

(c) Food sampling

Foods prepared at the bacon factory include sausages, sausage meat, polony, brawn, black puddings, roast and boiled ham. Samples of these and samples of other foods, including prepared salads, from retail shops were submitted regularly to the Public Health Laboratory for bacteriological examination - satisfactory reports were received.

It is also the practice to take bacteriological swabs from the bacon factory drainage system. These also were reported to be satisfactory.

(d) Report on Food Samples

I am indebted to the Chief Inspector (W K Natrass Esq), Weights and Measures Department, Cheshire County Council, for the following report on food and drugs samples obtained in the Urban District during the year.

Article	Number obtained	Number unsatisfactory
Apricot halves in syrup	1	
Biscuits: Trimmets	1	
Blackberry and Apple Pie	1	
Bread	1	
Bread, barm cake (complaint)	1	1
Bread (complaint)	2	2
Calamine Lotion, BP	1	
Cheese, Cottage	1	
Cheese Spread	1	
Cherries in syrup	2	
Chicken Casserole with dumplings	1	
Chocolate, drinking	1	
Chocolate, orange cream filled	1	
Chocolate, plain diet	1	
Coffee, instant	1	
Confectionery, Polka Dots	1	
Short pastry	2	
Cream, dairy	1	
Custard Powder	1	
Dessert, Apricot & Rice Dessert(complaint)	1	1
Blackcurrant Fool	1	
Egg and Bacon Breakfast, Junior	2	
Fruit Loaf (complaint)	1	1
Fruit Salad in syrup	2	1
Gelatine	2	
Glycerine	1	
Golden Eye Ointment	1	
Grapefruit segments	2	
Marmalade	1	
Marzipan	1	
Milk	72	1
Milk, instant non-fat	1	
Mincemeat	1	
Monosodium Glutamate	1	
Mushrooms, creamed	1	
Nutmeg, ground	1	
Pastry mix	1	
Pills, Beechams	1	
Pudding, Christmas	1	
Pudding, Pineapple	1	
Pudding, Steak and kidney	1	
Rhubarb in syrup	1	
Sauce	1	
Sausage (complaint)	2	2
Sausage, pork	1	
Slimbix	1	
Soft drinks: Export shandy	1	1
Lemon and Barley	1	
Orange	7	
Soup, mushroom block	1	1
Strawberries	1	
Suet, shredded beef	1	
Tablets: Aspro	1	
Indigestion	2	
Merocets	1	
Powerin	1	
Veganin	1	
Vitamin C	1	

Tomato and Rice Savoury	1	
Tuna Steak	1	
Vita Cup Drink	1	
Wheat Flakes	1	
	148	11

The Following are details of the Non-standard samples:

No.	Sample	Result of Analysis	Remarks
1	Barm Cake (complaint)	Contained iron compounds and vegetable oil resembling machine lubricant	Bakers cautioned
2	Milk, C.I. U.F.B.	5.0% deficient in fat	Retailer cautioned
3	Sausage (complaint)	Fat was exhibiting incipient rancidity	Retailer fined £10 plus £5.65 costs
4	Sausage (complaint)	Grossly contaminated with mould having the characteristics of a species of penicillium	Retailed fined £20 plus £12.18 costs
5	Bread (complaint)	Grossly contaminated with mould. Moulds consisted of species of Eurotium, Mucor and Penicillium	Bakers fined £75 plus £11.65 costs
6	Bread (complaint)	Grossly contaminated with four species of mould	Bakers cautioned
7	Export Shandy	Contained 0.80 <sup>o</sup> proof spirit, inappropriate to use name "shandy" for any preparation containing less than 1.5 <sup>o</sup> proof spirit	Discussing with manufacturer
8	Fruit Salad in Syrup	Not complying with Labelling of Food Order in that ingredients were not listed in descending order by weight	Manufacturer to re-label
9	Mushroom Soup Block	Presence of wine declared amongst ingredients, but presence of wine could not be confirmed	Under investigation

No.	Sample	Result of Analysis	Remarks
10	Apricot and Rice Dessert (complaint)	Chemical tests applied to fly indicated it had not been heat-treated	No further action taken as it could not be established where insect entered sample
11	Fruit loaf (Complaint)	Contained foreign matter consisting of dried foreign brown dough	Bakers cautioned

In addition to the foregoing samples taken by officers of the Weights and Measures Department, several complaints by private purchasers were investigated, as follows:

Nature	Remarks
Fly in meat and potato pie	Bakers cautioned
Glass in milk	Dairy cautioned
Iron compounds and machine lubricant in barm cake	Bakers cautioned. See No. 1 on samples list
Stale and hard marshmallows	Complaint not substantiated
Rancid sausage	Retailer fined £10 plus £5.65 costs. See No. 3 on samples list
Cement in milk bottle	Dairy cautioned
Alleged glass in salmon(tinned)	Vinegar test proved that alleged glass was a crystalline substance found to dissolve in the vinegar
Glass in milk	Dairy cautioned
Mouldy sausages	Retailers fined £20 plus £12.18 costs. See No. 4 on samples list
Dried yeast containing black particles	Manufacturers cautioned
Alleged buck shot in chicken curry	Complaint not substantiated. Foreign matter found to be cadaman seed, one of the spices used in the preparation of the meal
Insect in tin of pineapple cubes	Cautioned

Nature	Remarks
Mouldy beef burgers	Complaint not substantiated
Chicken meal said "not to be chicken"	Complaint not substantiated
Pitted rhubarb tin	Wholesalers cautioned
Bad smelling potatoes	Sellers cautioned
Foreign matter in bread	Bakers cautioned. See No. 6 on samples list
Mouldy loaf	Bakers fined £75 plus £11.65 costs. See No. 5 on samples list.
Cobwebs and maggots in drinking chocolate	Manufacturers cautioned.
Mushroom soup sold as Lentil soup	Probably sabotage
Green matter in tinned tomatoes	Importers cautioned
Thin watery toddlers' food	Goods replaced
Fly in baby food (Apricot and Rice)	Apricot and Rice Dessert. See No. 10 on samples list
Sausage containing piece of metal	Cautioned. Goods replaced.
Hard lumps, strange colour and cloudy juice in tinned grapefruit	Goods replaced. Foreign matter harmless.
Mouldy baby food	Packers cautioned
Baby food not up to required standard	No contamination found
Fruit loaf containing hard lumps	Bakers cautioned. See No. 11 on samples list
Foreign body in Fish Fingers	Foreign body found to be fish scale
Black spots in tinned tomatoes	Black spots called tomato rust appearing on the skin of the tomato. Goods replaced.
Matchstick in jar of jam	Cautioned

### 3. Milk Supply

#### Milk (Special Designation) Regulations, 1960

Dealers' Licences are issued by the Food & Drugs Authority and remain in force for five years. District Councils are required to maintain a register of dealers and dairies.

There are 11 dairy herds in the District from which approximately 564 gallons of milk are retailed daily.

Milk as sold to the public is sampled regularly by a County Sampling Officer and submitted to the laboratory for testing for keeping quality and in the case of pasteurised and sterilised milk the efficiency of the heat treatment. In addition raw milk sold without heat treatment to the public is tested for the presence of brucella abortus and Tuberculosis. Tuberculous infection is now extremely rare and none has been found during the year. 5 supplies were found to be infected with brucella and notices prohibiting the sale of the milk without previous heat treatment were served in these cases. The infected animals were identified and removed from the herds, before the notices were withdrawn.

The following table gives details of laboratory tests carried out on milk samples during the year:-

Methylene Blue Test		Phosphatase Test		Turbidity Test	
Passed	Failed	Passed	Failed	Passed	Failed
166	10	73	Nil	7	Nil

#### Brucella Samples

	<u>Total Submitted</u>	<u>Number Brucella Positive</u>
Bulk Samples	45	4
Dealer Samples	150	1
Individual Cow Samples	192	3
Totals	387	8

### 4. Ice Cream & Food Samples

8 Ice Cream and 29 other food samples were obtained during the year, and were graded as follows:-

Ice Cream Provisional Grade 1 - 8 samples

There are no legal standards for the bacteriological condition of the other foods. These were reported by the laboratory to be generally satisfactory.

SECTION 'G'

ADMINISTRATION OF THE  
FACTORIES ACTS, 1937 and 1948

## ADMINISTRATION OF THE FACTORIES ACTS 1937 and 1948

There are in the district 97 factories with mechanical power and 2 non-power factories.

The following Tables show the prescribed particulars required to be provided in accordance with Section 128(3) of the 1937 Act with respect to matters under Part I and Part VIII of the Act which are administered by the Council.

### PART I OF THE ACT

#### 1. Inspection for purposes of provisions as to health

	Number on Register	Number of Inspections	Number of Written notices	Number of occupiers prosecuted
Factories in which Sections 1, 2, 3, 4 and 6 are enforced by local auth- ity .....	2	3	-	-
Factories not included above in which Section 7 is enforced by local authority	80	29	1	-
Other premises in which Section 7 is enforced by local authority (excluding out- workers premises)	17	1	-	-
Totals	99	33	1	-

2. Cases in which defects were found.

	Found	Remedied	Referred		Prose- cutions
			To H.M. Inspector	By H.M. Inspector	
Want of cleanliness	-	-	-	-	-
Overcrowding	-	-	-	-	-
Unreasonable Temperature	-	-	-	-	-
Inadequate Ventilation	-	-	-	-	-
Ineffective drainage of floors	-	-	-	-	-
Sanitary conveniences:					
(a) Insufficient	-	-	-	-	-
(b) Unsuitable or defective	-	1	-	1	-
(c) Not separate for sexes	-	-	-	-	-
Other offences (not including offences relating to out- workers)	-	-	-	-	-
Total	-	1	-	1	-

PART VIII OF THE ACT

Number of outworkers' names received during year ..... 8  
 Number found not to be working at date of inspection ..... -  
 Nature of work: Making, etc. of wearing apparel ..... 8  
 Instances of work in unwholesome premises ..... -  
 Number of inspections made of outworkers' premises ..... 8

SECTION 'H'

ADMINISTRATION OF THE  
OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963

(A) Registration and General Inspections

Class	Number of premises registered during the year	Number of registered premises at end of year	Number of premises receiving a general inspection during the year
Offices	2	80	29
Retail Shops	13	195	99
Wholesale Shops, Warehouses	1	10	2
Catering establishments open to the public, canteens	-	18	2
Fuel Storage depots	-	2	1
Totals	16	305	133

(B) Total number of visits of all kinds to registered premises under the Act ..... 276

(C) Analysis of Contraventions

Section.	Number of Contraventions found.	Section.	Number of Contraventions found.
4	Cleanliness ..... 20	13	Sitting facilities .. -
5	Overcrowding ..... -	14	Seats (Sedentary Workers) ..... -
6	Temperature ..... 12	15	Eating facilities ... 3
7	Ventilation ..... 4	16	Floors, passages & stairs ..... 8
8	Lighting ..... 6		
9	Sanitary Conveniences ..... 8	17	Fencing exposed parts machinery ..... -
10	Washing facilities ..... 8	24	First Aid ..... 14
11	Supply of drinking water ..... -		General Provisions .. 22
12	Clothing Accommodation ..... 1		

Total ..... 106

(D) Exemptions NIL

(E) Prosecutions NIL

Number of complaints made under Section 22 ..... NIL

Number of interim orders granted ..... NIL

(F) Staff

1. Number of inspectors appointed under  
Section 52 (1) or (5) of the Act ..... 4

2. Number of other staff employed for most  
of their time on work in connection with the  
Act ..... NIL

(G) Reported Accidents - 7

## I N D E X
